*Basic Case Management Training
Introduction*

Introduction

- This state mandated training is to be taken within six months of employment, and then every two years after, for all case managers working in the mental health system in the state.
- The training is designed to present you with best-practice techniques for facilitating the recovery of individuals with mental illness and helping them attain the goal of a happy, healthy, independent life.

Introduction (continued)

- The following six modules will provide you with the basic information necessary for your introduction into case management.
- Please proceed to the first training module: Basic Case Management/Resource Coordination Overview to begin your training.

Completed

You have completed the introduction.
